

Photo Display Control

Once a photo is enlarged by either selecting an individual picture you can control the display of the image. Placing the cursor over the image will reveal the following control symbols above the image.

The outside arrows will display the previous and the next photo respectively.

The up arrow returns you to the index page.

The four arrows expands the image.

The “i” in the circle shows/hides picture captions

The 3 squares shows a row of thumbnails above the picture.

The dark arrow head starts autoplay.
